Re: 2 in 1 Ultra Liquid Rid-X Septic System Treatment + Drain Maintainer-updated label

Dear Mr. Cavanagh:

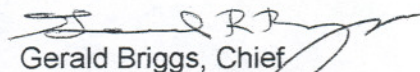

This is to acknowledge receipt on May 6, 2004 of the affidavit confirming that the current product label on file with the Florida Department of Health for "Ultra Liquid Rid-X Septic System Treatment" is the same formulation as the recently submitted updated product label for "2 in 1 Ultra Liquid Rid-X Septic System Treatment + Drain Maintainer" and that the product formulation has not been modified. Therefore, the department has no objection to the use of the updated label for the product "Ultra Liquid Rid-X" as referenced above.

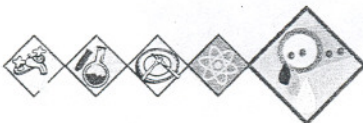

The department reserves the right to withdraw acceptance if product formulation or ingredients are modified after product evaluation by the department or subsequently found not to be in compliance with rule.

This product determination is limited to Department of Health jurisdictional circumstances as defined in Chapter 64E-6, Florida Administrative Code and Chapter 381.0065, Florida Statutes.

Should you have any questions concerning this letter, please call Dr. Sonia Cruz at (407) 317-7325.

Sincerely,

Gerald Briggs, Chief
Bureau of Onsite Sewage Programs

Division of Environmental Health, Bureau of Onsite Sewage
Programs
4052 Bald Cypress Way, Bin #A08, Tallahassee, Florida 32399-1713

Septic Backup
& Keeps Drains
Running Smoothly!**

SEPTIC SYSTEM TREATMENT

2 in 1 Ultra Liquid RID-X® Septic System Treatment + Drain Maintainer contains billions of 100% natural active bacteria and enzymes that have been selected to effectively digest septic system waste. Each bottle of Ultra Liquid RID-X® contains the following ingredients scientifically proven to breakdown household waste:

- Lipase: Fats, oils and greases
- Protease: Proteins
- Amylase: Starches
- Cellulase: Paper, vegetable matter, shampoo thickeners and some food

Ultra Liquid RID-X® is safe for all pipes and plumbing.

DIRECTIONS FOR USE:

Shake bottle before use. For septic tanks up to 1,000 gallons, pour 3.5 fl. oz. (approximately 1/2 cup) of Ultra Liquid RID-X® directly into the toilet or any sink drain weekly. For every additional 500 gallons, add an additional 1.75 fl. oz. (approximately 1/4 cup) to toilet or any sink drain weekly. Flush toilet or run water down sink drain for 15 seconds. Use before periods of plumbing inactivity such as overnight or leaving home for the day.

DRAIN MAINTAINER

Ultra Liquid RID-X® also helps keep drains running smoothly. The natural bacteria and enzymes help remove the tough build-up that causes slow-running drains. Pour 3.5 fl. oz. (approximately 1/2 cup) down the drain, followed by 8 fl. oz. (1 cup) of water.

KEEP OUT OF REACH OF CHILDREN

This product contains no toxic pollutants as defined pursuant to the Federal Water Pollution Control Act. Occasional pumping may also be required for good septic system maintenance. Contains Bacteria Cultures, Enzymes, Preservative, Coloring Agents, Fragrance and Water.
